

Food Service

Our STORY

What epic story doesn't start with a little romance and a whole lot of great food?

Our story started on a food journey somewhere between Southern California, Mexico and Australia when Colin (a true-blue Aussie bloke) and Deann (a fun-loving Cali girl) fell head over heels in love and spent a year travelling together.

Craving the tastes and smells of her childhood, Deann persuaded Colin to take a huge leap of faith in launching their own range of handmade white corn tortillas, tortilla chips and salsas out of a small factory right in the heart of Miami on the Gold Coast.

Fast-forward a stellar 25 years in business, we now employ over 50 staff and supply our range of healthy wraps, tortillas and condiments Australia-wide and internationally.

Passion is where our story started and all these years later, passion is what continues to drive our 100% Aussie family-owned and operated business.

We continue to operate on the Gold Coast out of our ever-expanding factory space in Burleigh Heads, using locally sourced ingredients wherever possible.

Our commitment is to make the most authentic food possible with a strong focus on nutrition, dietary requirements, flavours and quality.

Ultimately, it is food made with love and soul that makes Diego's truly stand out from the pack!

Food Service OVERVIEW

At Diego's we believe authenticity plays a major part in everything we do. Unsurprisingly, this means creating a product that is made as authentically as it tastes.

With the ever-growing appreciation for bona fide Mexican cuisine that is closest to the real thing, Diego's is pleased to serve up genuine nixtamal corn tortillas, raw cut corn tortilla chips and soft flour tortillas to tastebuds around the globe.

We openly champion Australia's wonderfully diverse restaurant culture and are proud to see our products form the basis for delicious culinary dishes in some of the country's best dining spots.

Diego's has partnered with a number of trusted distributors and suppliers both Australia-wide and internationally, some of which have been with us for many years!

As the only Australian made and family-owned company making both corn and flour tortillas, we are passionate about creating products that use locally sourced ingredients wherever possible.

While Diego's has its own branded products in both the retail and food service sectors, we also provide many customers the option of private labelling throughout Australia as well as overseas.

We are a vegan and allergen friendly production facility — free from nut, dairy, egg, lupin and soy, with our ingredients free from animal products.

We value our relationships with our global network of suppliers and distributors, ensuring we always conduct business at a friendly and grassroots level.

Drawing from our own family recipes, our tortillas are baked fresh daily and are made on traditional corn tortilla sheeters and wheat-based tortilla presses.

All our products are made with love in our family tortilleria in Burleigh Heads, QLD Australia.
